60661 SEERSUCKER PILLOWCASE PAIR

It's easy to see why British colonials in India wore seersucker: It's one of the most lightweight and breathable fabrics you can wear... a major benefit under the hot, tropical sun. We've translated this quintessential summer fabric for the bed and gave it a little French twist with variegated tonal stripes in soft, Provençal-inspired hues. Sewn of luxuriously soft, lightweight cotton, the look is relaxed, airy and easy as can be - perfect for the laid-back spirit of the season. This collection marries beautifully with our Positano, Moroccan and Tangiers bedding. Coordinates with our Seersucker Sheet Set (sold separately).
